Caltrans' Seismic Design Criteria Mark S. Mahan and Richard D. Land	1
A Brief Introduction on China Code for Seismic Design of Urban Bridges Lichu Fan, Fenghua Zhang and Yan Xu	15
Recommended LRFD Guidelines for the Seismic Design of Highway Bridges M. Lee Marsh	23
Impacts of Seismic Requirements on the Design of the I-70 Cable Stayed Bridge at St. Louis John M. Kulicki and Thomas P. Murphy	35
Seismic Performance of a Double-deck Viaduct Tianbo Peng, Jiangzhong Li, Shide Hu and Lichu Fan	51
Chongqing CaiYuanBa Yangtze River Crossing John Sun and Man-Chung Tang	59
Effect of Retrofit, Skew and Number of Spans on Bridge Fragility Masanobu Shinozuka, Sang-Hoon Kim and Youwei Zhou	61
Seismic Pounding Behavior of Simply Supported Girder Bridges Xi Zhu and Gang Yi Shuai	75
Implications of Seismic Pounding on the Longitudinal Response of Multi-Span Bridges – An Analytical Perspective Reginald DesRoches and Susendar Muthukumar	85
Analysis Models and Methods for Structural Response of Spatially Varying Ground Motions Qingshan Yang and Yuji Tian	99
Controlled Rocking System for Seismic Retrofit of Steel Truss Bridge Piers Michael Pollino and Michel Bruneau	113
Development of Built-up Shear Links as Energy Dissipators for the Seismic Protection of Long Span Bridges Ian G. Buckle, Peter Dusicka and Ahmad Itani	125
The Implementation of Dampers on Several Large Bridges in China Aijun Ye, Zhi-qiang Wang and Lichu Fan	139

Contents (continued)

	Page
Seismic Performance of Bolu Viaduct’s Isolation System in the 1999 Duzce Earthquake Michael C. Constantinou and Panayiotis C. Roussis	149
Instrumentation and Baseline Modeling for Long-Term Performance Monitoring of Highway Bridges Maria Q. Feng, Doo Kie Kim, Jin-Hak Yi and Yangbo Chen	165
Seismic Design of the New San Francisco Oakland Bay Bridge Self Anchored Suspension Span Marwan Nader, Brian Maroney and Man-Chung Tang	181
Seismic Retrofit Strategies for Substandard Single-Column Bents Supported on Pedestals Nathan Johnson, M. Saiid Saiidi and Ahmad Itani	215
Hydrodynamic Effect on Seismic Response of Bridges Jun-jie Wang, Wei Lai, Xiao Wei and Shide Hu	227
Evaluation of NCHRP 12-49 Provisions for Seismic Design of Bridges in New Jersey Harry Capers, Husam Najm and Hani Nassif	245
Performance Based Design for the Seismic Retrofitting of Long-Span Steel Truss Highway Bridges Charles Seim	259
Development of Damage-based Limit States in Performance-based Seismic Design for Steel Bridges George C. Lee, Zach Liang and Yu-Chen Ou	271
Aseismic Performance of Base-Isolated Bridges Using Lead-Rubber Bearings Guiping Yan, Guanyuan Zhao and Tieyi Zhong	283
Seismic Behavior of CFST Bridges in China Yan Xu, Shide Hu and Bao-Chun Chen	299
Workshop Recommendations	309
Agenda	311
Participants List	313
